Gregg Bellofatto || *Software Developer*

ABOUT ME

After working in the Automotive Industry (both as a tech and management) I was ready for a career change. I've always been interested in coding, and learned of a local accelerated program at Carolina Code School. I attended in person as a full-time student. Since then I have done some freelance work and just finished up a 6 month contract. Looking to grow my career with a company that needs a hard working software developer.

EMPLOYMENT HISTORY

- **BoltAffect – Software Developer**
  March 2023 – December 2023

I assisted in the successful launch of a new website for [Grace Church](#) using Django, and setting up a CMS system with Wagtail. Additionally, I worked on updating [MTC](#) Federal Credit Union's website, enhancing its functionality and modernizing its design. Furthermore, I aided in constructing an internal ERP system for United Catalyst Corporation, streamlining their operations and improving overall efficiency. Lastly, I was in charge of implementing the designs of all three projects utilizing Tailwind CSS.

- **Audi Greenville – Service Advisor**
  May 2018 – August 2022

- **Big "O" Dodge – Service Advisor**
  December 2015 – May 2018

- **Dyna Tune – Service Manager**
  June 2010 – August 2015
